Adventure Guides for the Soul

Bringing Hawai'i to you from the beautiful island of Kaua'i

Aloha,

Thank you for taking a few moments to learn about our work.

We know that senior ministers and organizational leaders receive many invitations from guest speakers and workshop presenters.

As senior ministers ourselves, we understand that you are not simply choosing a speaker. You are creating an experience for people you know and love. You want something that will deepen connection, renew hope, spark meaningful conversations, and offer practical tools that continue to serve long after the weekend is over.

This is the kind of experience we will bring to your community.

If, as you read these pages, you find yourself imagining your own congregation laughing together, asking courageous questions, rediscovering possibility, and leaving with renewed purpose, perhaps we are meant to meet.

And with our 2027 West Coast tour now booking, this is a wonderful moment for our paths to cross.

We would be honored to partner with you.

With warm aloha,

Dr. Patrick Feren & Dr. Rita Andriello-Feren

Co-Founding Spiritual Directors, CSL Kauaʻi

Why Invite Patrick & Rita?

Every spiritual community hopes to create moments people carry home with them—moments that renew hope, awaken possibility, and begin conversations that matter.

That is what we bring: not simply another presentation, but a shared experience designed to help people reconnect with their inner wisdom and consciously create the next chapter of their lives.

Long before we founded Center for Spiritual Living Kauaʻi, our lives had already become a series of adventures that stretched us and invited others to grow.

- ✦ Inspired a congregation every Sunday for more than thirteen years, both in person and through livestream reaching people around the world.
- ✦ Built labyrinths throughout southern California, including one inside a state penitentiary, and walked alongside incarcerated men and women seeking healing and new beginnings.
- ✦ Wrote, directed, and produced professional theater designed to inspire and transform.
- ✦ Authored six books on healing, spiritual growth, and conscious living, along with more than 4,000 published essays and reflections.
- ✦ Facilitated eleven week-long transformational retreats on Kauaʻi.
- ✦ Counseled individuals, couples, and transformational groups through major life transitions.

Our lives have never been about arriving at one destination. They have been about saying yes to the next meaningful adventure—and helping others find the courage to do the same.

And we do all of it together. As a married couple who co-lead every service, workshop, and retreat, we bring two voices, two perspectives, and one shared vision. We can model partnered exercises in real time, hold space in complementary ways, and offer your community a living example of creative and spiritual partnership. Participants often tell us that watching us work together is itself part of the teaching.

A Weekend Crafted by Performers

Before we were ministers, we were theater artists—and we have never stopped being both.

We are both professional performers, and between us we carry decades of experience on stage and behind it—acting, directing, and producing—including Rita's Master's degree in Theater and Directing. Our background shapes everything we offer. A weekend with us is not a series of talks; it is a fully produced experience, crafted with the pacing, storytelling, and emotional arc of live theater, so that every moment builds toward genuine discovery.

And there is music. Rita is a professional singer, and her voice is one of the gifts we offer—an opening song on Friday evening, a reflective moment in Saturday's workshop, or a featured song in Sunday's celebration. If your community has its own music ministry, she is just as happy to sing alongside them or simply let their gifts shine. Like everything else in the weekend, the music is shaped around what best serves your congregation.

“

Every person has a Hawai'i.

People often tell us, “You’re living our dream.” We understand why.

For many people, Hawai'i represents beauty, freedom, possibility, and the courage to imagine a different life. But Hawai'i is not really our message. It is the visible result of trusting an invisible dream.

We do not tell our story because everyone should move to an island. We tell it because everyone has a Hawai'i.

For one person, it may be the book they have always wanted to write. For another, it may be a relationship they long to heal, a business they dream of creating, a new direction in their work, or simply the courage to begin again.

We know your community will leave asking one unforgettable question: *What is my Hawai'i, and am I ready to take the next step?*

What People Experience with Drs. Patrick and Rita

Dr. Rita and Dr. Patrick are spiritual leaders who genuinely walk their talk. They are honest about how they apply the teachings of Science of Mind to the real, daily challenges we all face, and they bring open hearts, warmth, and kindness to everyone in their community. I experienced them facilitating a full-day retreat, and their attention to each participant's engagement and presence was exceptional. As a participant, I felt held, heard, and supported throughout. We are lucky to have them on island.

— Jac O'Keeffe, Author and Co-founder of The Association for Spiritual Integrity

In 2017, while on vacation, my husband and I wandered into CSL Kaua'i for a Sunday service for the first time. We were completely enchanted with the center and its two ministers, Patrick and Rita. Both offered insight, wisdom, and inspiring ideas delivered with authenticity, humility, and spiritual authority. I felt an immediate connection with them, being a Unity minister myself. Every time we are on the island, we attend CSL Kaua'i for another dose of inspiration and connection, and we feel like we belong. Since that first visit, I have watched other services online and feel the same sense of belonging. Drs. Patrick and Rita have created a beautiful space that invites connection and spiritual community.

— Rev. Sue McQueen, Senior Minister, Unity of Columbine, Colorado

Patrick and Rita unabashedly share the ever-changing challenges their life journeys offer that inform their spiritual growth—and inspire mine. Having been in at least three multi-day retreats and numerous workshops, I've appreciated the skills from their acting careers joining with their intense spiritual training. Their teachings have become foundational to my life.

— Marian Head, Author of Revolutionary Agreements

Drs. Rita and Patrick are outstanding speaking coaches and dynamic facilitators! Through my work with them three times in Flying Solo, I became a more polished writer and expressive speaker. I highly recommend this duo who work seamlessly as a powerful empowerment team!

— Deb Valentina, Writing Coach & Developmental Editor

I have had the privilege of knowing Dr. Rita and Dr. Patrick for the past 12 years, and during that time, I have attended numerous retreats and workshops, including Flying Solo. While living on Kauaʻi, I was also fortunate to attend their Sunday services, where each week they delivered powerful, inspiring messages that resonated deeply. Every event they create is clearly divinely inspired; and their genuine passion, wisdom, and unwavering commitment to guiding and supporting others on their journey of self-discovery can be felt in everything they do. They have a remarkable gift for creating space where people feel seen, encouraged, and empowered to grow into their highest potential.

— Michelle Lemay, Professional Tour Guide and World Traveler

My journey with Dr. Rita Andriello-Feren and Dr. Patrick Feren has been one of the greatest blessings of my spiritual life. Over the past 12 years, I have participated in dozens of classes, two Sacred Journey retreats, and the two-year Practitioner Training, each experience deepening my understanding of Science of Mind and my own spiritual path. Rita and Patrick don't simply teach these principles—they live them with authenticity, integrity, compassion, and joy. Their creativity, wisdom, empathy, and visionary leadership have created a thriving spiritual community on Kauaʻi that touches lives around the globe. I am deeply grateful for their unwavering commitment to helping others awaken to their highest potential. Their guidance has profoundly shaped my life, and I wholeheartedly recommend them to anyone seeking spiritual growth, authentic community, and practical tools for living an inspired life.

— Melissa Mojo RScP, Spiritual Practitioner and Performing Artist

I live on the island of Maui and have been a member of CSL Kauaʻi for six years. I watch Drs. Patrick and Rita every Sunday online in the comfort of my cozy little home while I make jewelry. Their Sunday message always uplifts and resets my week. I have also attended many of their classes online and learned more about the teachings of the Science of Mind. My favorite of their offerings is Drs. Rita and Patrick's morning meditations on Facebook—they help me set my day in a positive direction. I feel truly blessed to be part of the CSL Kauaʻi community.

— Deanna Kiersz, Member of CSL Kauaʻi and Artist

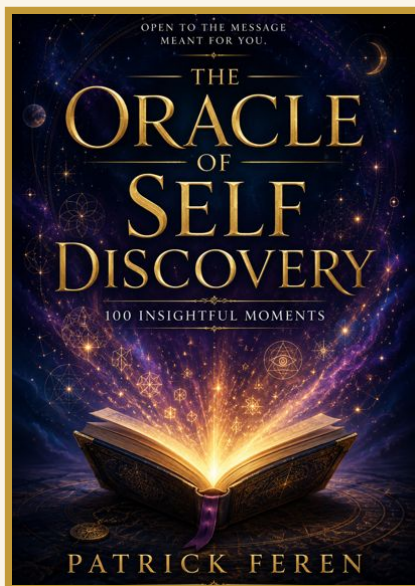

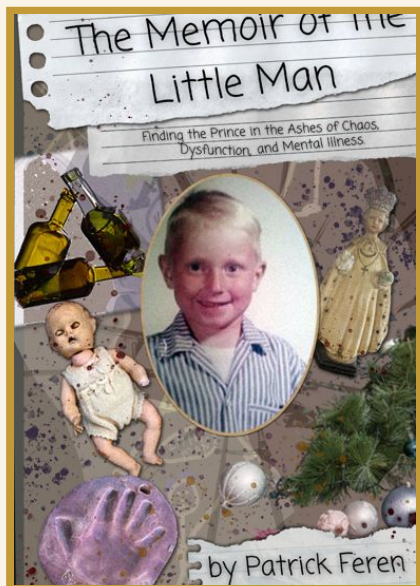

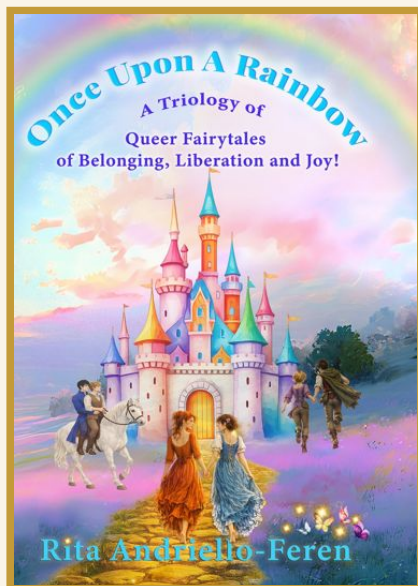

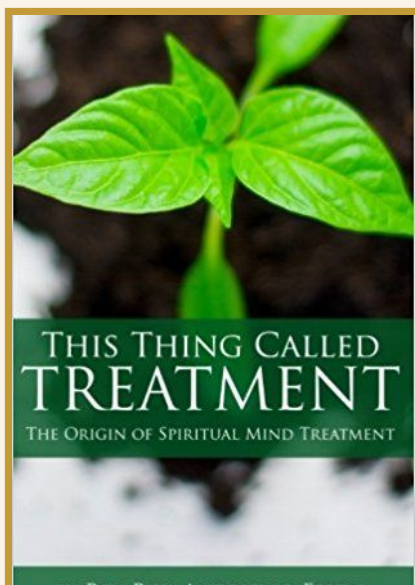

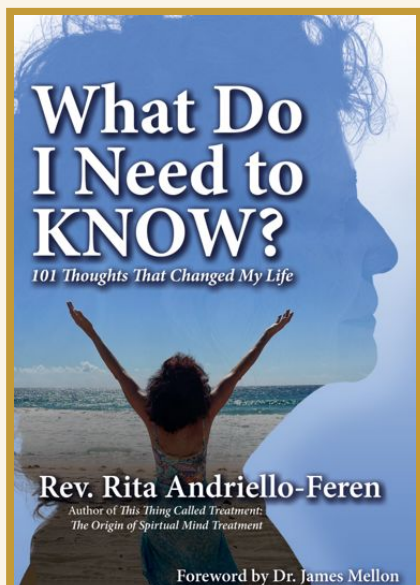

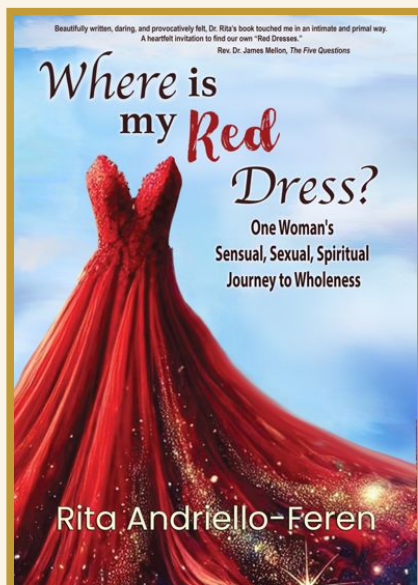

Peggy and I want to thank Rita and Patrick for the inspirational talks they regularly give as the Co-Spiritual Directors of the Center for Spiritual Living Kauaʻi. The way they weave practical wisdom together with real spiritual depth always gives us both a lot to reflect on. We always leave inspired, with a clearer sense of what growth actually looks like in practice, and a real motivation to put it into action rather than just think about it. Attending their service has become one of the true highlights of our annual visits to Kauaʻi. They put so much care into what they share—it gives us something to carry forward every time.

— Bill and Peggy Baker

THE WRITTEN WORD

Our Books

Our books are where our journeys, our teachings, and our hearts are gathered—memoir, practical spirituality, and playful self-discovery. They hold the stories behind everything we teach.

We bring our books with us: they are available throughout the weekend, with a signing celebration after Sunday's service—a joyful way for your community to carry the weekend home.

WHAT'S YOUR HAWAI'I?

WE'D BE HONORED TO PARTNER WITH YOU

Every community has dreams waiting to be awakened. Every congregation has people quietly wondering, “*Is there more?*” Our intention is simple: to spend one weekend reminding them that the answer is yes.

If you are looking for more than a guest speaker—if you are hoping to create a weekend that strengthens community, inspires meaningful conversations, and gives people practical tools for creating lives of greater purpose and joy—we would be honored to partner with you.

And a word about the practical side: we believe a great weekend should feel like a win for everyone. We will work with you to shape fees, travel, and arrangements in a way that serves your community and honors the value of the work we bring. Abundance flows both ways, and partnerships thrive when the congregation and the guest ministers both flourish.
